Drumroll, Please!

A Saturday show at Beat Street Studios · English

Same reminder: name and date at the top, and answers on the Answer line.

A. Read "The Stick That Got Away." Then answer the questions.

Sam had a drum lesson at Beat Street Studios in Maple Town. He was practicing for the Saturday show. He set his snare drum on the rug and gave a stick a little toss. The stick flew up, bounced off a cymbal, and landed in a potted plant. "Nice catch, plant," Sam said with a grin. His teacher, Ms. Bell, laughed so hard her glasses slipped down her nose. "Let's try a softer toss," she said. When it was time to play, Sam counted to four and started a beat that made the windows hum. A little dog in the hallway began to dance. When the song ended, Ms. Bell clapped, and the plant somehow looked proud, too.
